

**Mr. Imad Younis, President, Alpha Omega**

Imad Younis is a Nazarene business & social entrepreneur. After achieving his degree in Electrical engineering from the Technion and gaining experience in the neuroscience field for some years, he founded Alpha Omega "AO" in 1993 – a medical device company.

Along the years, Mr. Younis strengthened the core-competence of "AO" in the fields of neural recording and stimulation, and built an infrastructure to grow and prosper; from a centralized one man company to a worldwide technology company that is considered leader in the fields of Neuroscience and Functional Neurosurgery.

He sits on multiple NGO boards and initiates programs that reflect his life mission, which is growing leaders and entrepreneurs out of his own company & community to take the lead for shaping the society's future.

Imad is married to Reem, with 3 children: Dima, Jude and Nada
